HONGKONG, June 9th, 1900.

The urgent subject of the Water Supply of
Hongkong has been much to the front this
year. In his recent report for 1899 the
Medical Officer of Health pointed out that
the Colony's water supply had again proved
deficient last year, a service varying from
one to four hours only having been allowed
to the city for eight weeks during the period
from April to June. "It is clear, therefore,"
he continued, "that the water supply gen-
erally is inadequate for the needs of the
population, and in view of the steady in-
crease in the population I am more than
ever convinced that there should be no
further delay in setting up the necessary
pumping plant and in providing reservoirs
and service pipes for the supply of sea-
water for all municipal purposes, unless a
greatly increased fresh-water supply can
be obtained at a less cost than that which
would be incurred by the installation of
such plant." Dr. CLARK then went on to
deprecate the employment of good potable
water, such as we are fortunate to possess in
Hongkong, for the purposes of flushing the
drains, etc. In supporting his motion be-fore the Sanitary Board on Thursday he
restated his case and put it still more
strongly, pointing out that the pres-
ent storage capacity for the city
amounts to 500 million gallons and the ut-
most possible storage capacity, after the
completion of Mr. F. A. COOPER's scheme,
will be about 700 million gallons; and that
only in very wet seasons will it be possible
to have these reservoirs full. Mr. COOPER
in his report in 1896 estimated the consump-
tion of water per head at 15 gallons a day;
since then it has risen to 17 gallons a day,
so that, in Dr. CLARK's words, "that gentle-
man's sanguine expectations as to the suffi-
ciency of our water-supply for some years to
come have scarcely been realized." Dr.
CLARK is whole-hearted in his advocacy of
the installation of a sea-water supply. "The
difficulties," he said, "with regard to the
use of sea-water have been overcome in
many even of the smaller sea-coast towns
of England, and there is no excuse what-
soever why a city such as Victoria should
longer delay in adopting what is now
"one of the most ordinary and commonplace
methods for augmenting the water supply
required for such purposes as are speci-
fied in the terms of the resolution,"
that is to say, the watering of streets, the
flushing of the main sewers, the extinction
of fires, and the flushing of the many public
urinals so urgently needed throughout the
city. Mr. COOPER in 1896 did not disregard
the possibility of employing sea-water for
such purposes. He said: "Though the use
of sea-water favours deposit in sewers, its
adoption for street watering has advan-
tages over the use of fresh water and may
with advantage be used in comparatively
level localities." He added, however:
"Any project for the utilisation of sea-water
in the City of Victoria owing to the vary-
ing elevation of the built area must neces-
sarily involve the installation and main-
tenance of pumping machinery and the
construction of service reservoirs in addi-
tion to those used for the water supplied
for potable purposes. It would further
be necessary to lay throughout the City a
separate system of distribution mains and
hydrants." The cost of such a project, he
stated, would not compare favourably with
that of the scheme for increasing the storage
of fresh water.This question of cost stands in the way of
the introduction of a scheme for sea-water,
otherwise admirable on many grounds and
above all because of the possibility of a con-
stant supply, which hitherto we have never
been able to secure, for the very good reason
that we have to depend on so capricious a
factor as the rainfall. It is therefore neces-
sary to be hoped that the Government will
consent to appoint a committee, as suggested
by the Sanitary Board, who may make an
exhaustive enquiry into this vexed question
and show whether it is or is not within the
means of the Colony to adopt some system
of sea-water flushing. Should the result of
the enquiry be against the scheme, the
necessity for increasing the fresh-water will
become even more urgent than it is
now. In the meantime, it must be re-
membered that, inadequate as our water
supply is now, and though all indications
point to a growth of population in the near
future which must outstrip any possible in-
crease of water storage, while even in the
past a prolonged period of drought has
always exposed Hongkong to the perils of a
water famine or at least has led to the adop-
tion of an intermittent supply at the most
dangerous period of the year, as occurred in
the great plague year of 1894—in spite of
all this, if means were taken to check the
present waste of water which is constantly
going on, principally in the Chinese portions
of the city, we should not be so often
brought near to a water-famine as we have
been. Were there no unnecessary waste
and no illicit turning to commercial purposes
of the water intended for domestic purposes
only, we should not be so badly placed.
There are not wanting many who consider
that the supplying of a house to house sys-
tem of water to the Chinese houses was a
capital mistake. However, the supply is now
furnished, and a means of checking waste
has not been devised yet. Whether we
agree with those who condemn the original
supplying of water direct to the Chinese
or not, whether a reversion to the old
method of sanitation is impracticable, un-
desirable, or not, there can be no
dispute that under the present system we
cannot do without a greater water-supply
and cannot afford to remain at the mercy of
the rainfall. More water, be it fresh or
salt, is a vital necessity, and it is incumbent
on all interested in the health of the Colony
to interest themselves in the problem how
secure it.Between noon of the 7th and, upon the 8th
instant there were reported eleven cases of
plague and seven deaths.Sir F. Swettenham has been laid up with a
severe attack of fever ever since his arrival at
Waihaiwei.In its account of the reception of H.M.S.
Terrible here the Daily Express states that "an
address was presented to the commander by
Major Percy Scott on behalf of the community."Mr. H. S. Wilkinson, the new Chief Justice
of H. M. Supreme Court, was expected at Shang-
hai from Yokohama by the N.D.L.S. Sachsen on
Thursday or Friday this week.At the Magistracy eight more houses used as
brothels in San To Lane and Second Street were
ordered to be closed within 24 hours on account
of their being in a prohibited area.It is reported from Hailow (Hainan) that the
building formerly occupied by the British Consul
has been leased to the French, and a French
Post Office is now the latest addition. A cable
it is said, is about to be laid to Hailow en route
to Kwangchow.On learning that the Rev. Charles M. Sheldon,
author of *In His Steps*, was crossing the
Atlantic to engage in a preaching tour in Eng-
land, and that he had booked a luxurious steam-
ship in a fashionable Cunarder, an aged minis-
ter, with a slight stutter, was overheard to say:
"One w-w-would have thought that the au-
thor of *In His Steps* would have w-w-walked
across."The other day a junk which was at Capat-
moon was boarded by six men, who attacked the
master and the other occupants with knives, in-
flicting several injuries upon them, subsequently
taking away with them the crew. The matter
was reported to the Police at Pinesha, and the
ringleader was arrested. It transpired that the
attack was the result of a quarrel between the
master of the junk and the ringleader.A Chinaman who was charged at the Magis-
tracy yesterday with stealing from a house at
Yamnat tried to hoodwink His Worship and the
police by feigning madness. He commenced
gesticulating and making most extraordinary
grimaces. His ruse, however, did not succeed.
The lakong who arrested him said the man was
not insane the previous evening, and Mr. Mac-
donald sentenced him to six months' hard labour.A N.C. Daily News correspondent writes from
Newchwang, under date the 28th ult., that there
is a good deal of unrest in Manchuria at all
points of contact between the Chinese and
Russians. Two or three Russians at a time
have been killed in various places, and in con-
sequence they are being treated with suspicion
and shot on the slightest or no provocation, and
to treat the discovery of arms in dwelling-houses
as a proof of complicity with their enemies.
The air is full of vague rumours, apprehensions,
and expectations, just as the actual atmosphere
is dull and suggestive of an impending earth-
quake.Among the unfortunates who appeared before
Mr. Macdonald at the Magistracy yesterday morn-
ing was a respectable-looking Irishman who was
charged with being a vagrant. He did not deny
the charge, but told an interesting story to the
Bench. He said that he had only just arrived
in the colony from Singapore. He was turned
out of Johannesburg by the Boers, and had
stopped some time in Zanzibar, afterwards
going to Singapore and then coming on to
Hongkong. He was unable to work at present,
owing to an injury to one of his hands. He
added that he stayed at the Criterion Hotel the
previous evening.The illustrated papers brought out from home
by the last mail are full of the *Powerful* boys
and their doings in London and Windsor. In
the *Illustrated London News* is a page contain-
ing portraits of some of the Naval Brigade pre-
sented to Her Majesty the Queen at Windsor,
and among the portraits is that of Master Gun-
ner W. Sim, who was the head of the *Powerful*
Dramatic Company when in Hongkong. In
calling attention to the portraits the journal in
question says:—"With Captain Lambton's por-
trait we print that of a hero of the ranks, Gun-
ner W. Sim, of the *Powerful*, who on a memora-
ble occasion silenced a Long Tom in three
shots."The local mandarins at Shanghai, according
to the N.C. Daily News, have received despatches
from Peking to the effect that the Tsungli
Yamen has approved of a scheme of Victory Liu
of Nanking to allow foreigners to buy and rent
land in Paoshan district, outside of the Compo-
litan Settlement Extension. The new area
is to be south-east of the Sung-Wu (Shanghai-
Woo-sung) Railway line, between the limits of
the Extension and the New Rille Butts. Title
deeds are to be granted according to the custom
hitherto in vogue in Shanghai, namely, stamped
by the seal of the Taotai, the power of granting
title deeds being taken away from the authorities
of the Hui-Chang-Chia, or Land Office at Woo-
sung.Commenting on a telegram from its Peking
correspondent on the worthlessness of the In-
land Waters Concession, as shown again by the
recent refusal of the Shanghai Customs Taotai
to allow the British river steamer to trade be-
tween Shanghai and Ting-Nai, Chusan Islands,
under the regulations, the *Times* says in a lead-
ing article:—"It is the aim of the Government,
Mr. Brodick says, to keep open the waterways
of China. It is the aim of the Mandarins to
keep them shut, and, as the Mandarins are very
much in earnest and they think that the
Government are not, they have hitherto had the
better of the struggle."Instead of telling them sharply that they had made the concession
and that the adjustment of their finance to it
was their business and not ours, as perhaps we
might have done had it not been for the absence
and the subsequent illness of Sir Claude Mac-
donald, we proceeded to discuss these facilities
with them and to remind them that really they
ought to keep their work to us. To pressure
of that sort Orientals are supremely indifferent.
The Chinese stick to their own way, and kept
the river-trade to themselves."There is a report that San Yat-san, the hero
of the great kidnapping case in London some
time ago, has been captured by Gen. Yuan in
Shantung.The withdrawal of the regular troops from
the British Shan States is now in contemplation,
and they will be replaced by the Military Police.
It is not intended, however, to withdraw at once
the whole of the military garrison from Keng
Tuir in the neighbourhood of the Mekong
Valley. Two companies instead of a wing of a
Borneo Battalion will be stationed there
for the present, but next year probably
the post will be made over altogether to a
detachment of Military Police.Among the arrivals yesterday was Mr. H. A.
Ramsden, late British Vice-Consul at Manila.
He has been transferred to Havana. Mr.
Ramsden was very popular in Manila and had
a most trying time during the siege of that city.
His father was British Consul in Cuba and lost
his life through the treatment he was subjected
to during the war in defending American in-
terests. Another arrival is Mr. T. Cowan, who
has given up the editorship of the *Manila*
Times and is going home. Manila does not ap-
pear now to be an ideal place to reside in, and
many residents have regretted the change from
the charming old city in Spanish days to its
present condition. The cost of living is also
said to have doubled since then.We regret to announce the occurrence of a sad
bathing fatality at Kowloon on Thursday even-
ing. Private Parsons, of E. Company, Royal
Welch Fusiliers, losing his life. The deceased
and seven comrades were bathing off the beach
near the officers' mess when it was suddenly dis-
covered that Parsons was missing. On a search
being being instituted he was found floating
face downwards in an unconscious condition.
He was brought ashore, and the usual means
for the resuscitation of the apparently drowned
were resorted to, but without result. Surgeon-
Major Browne did all that was possible,
but after working for close upon two hours
it was found that the man was beyond recovery.
The body was hereupon removed to the mortu-
ary. The deceased was quite a young man,
a good swimmer, and much liked by his comrades.Warrant Officer Milligan, who starts to-day
for England, has not been allowed to leave the
colony without taking with him tangible
tokens from the "A" and "C" Machine Gun
Companies of the H. V. C. of their appreciation
of his services as instructor. The presen-
tations were made at the Volunteer Institute
last night. On behalf of "A" Company, Captain
Saunders presented their late Instructor with a
beautiful silver cup and a bank draft, the Cap-
tain delivering a most happy little speech in
making the presentation. Three hearty cheers
and a tiger for Mr. Milligan followed, after
which the recipient made an appropriate reply.
Subsequently Lieutenant Underwood, on behalf
of "C" Company, and in the absence of Captain
Potts, presented the late Instructor with a sil-
ver watch and gold chain and pendant, the latter
being appropriately inscribed. The departure
of Warrant Officer Milligan is sincerely regret-
ted by the Machine Gun Companies, he having
proved himself an ideal instructor.The *Daily Express* New York correspondent
telegraphed on the 9th ult.—There was much
of international interest in the dinner given by
the American Asiatic Association at Delmonico's
last night to Sir Thomas Jackson, the head of
the great Hongkong and Shanghai Banking
Corporation. The gorgeous banquet room was
decorated with American, British, Chinese, and
Japanese flags, and beneath the clustered colours
the guests drank, standing, to the Queen and to
the President. Mr. Wing Fung (Chinese
Minister), Sir Percy Anderson (the British
Consul-General), Bishop Potter, and President
Jesp, of the Chamber of Commerce, set at the
guests' table. Sir Thomas Jackson said, and
that for their trade and that of England there
was unlimited expansion possible in China. He
thought that Lord Balfour's book, "The
Break Up of China," had a misleading title,
for 1890 had been China's most prosperous year.
He praised Secretary Hay's open-door policy,
and declared that America and England should
stand shoulder to shoulder to keep the world's
markets open. Minister Wing Fung Fung
endorsed Sir Thomas Jackson's remarks, and
said that China would survive as a nation for
many centuries.Our Governor, Sir Henry Blake, has been
interviewed by a representative of the *Herald*
at Kowloon, where he arrived on the 30th ult.
From the account published in our contem-
porary it appears that Sir Henry Blake, al-
though on a pleasure trip merely, is intensely
interested in the recent news from China, and
he does not hesitate to admit that the situation
is critical. He does not, however, continue the
Herald, attach credence to the view that the
Tsungli Yamen is working in unison with the
Boxers. Rather he is disposed to attribute
the outbreak of lawlessness and the present
activity of the Boxers to causes which briefly
may be summed up thus: bad weather, failure
of crops, ignorance and prejudice. The
country Sir Henry passed over between
Tientsin and Peking and between Peking and
Shanghai he describes as arid and barren,
owing to the lack of rain. That this condition
of things has contributed to bring about the pre-
valent feeling of unrest is quite probable and
that it has been taken advantage of to fan
the ever-smouldering hostility to foreign in-
fluences, more particularly foreign religious in-
fluences, is equally probable. Sir Henry thinks
it possible that complications will arise out of
the sanguinary attacks upon Roman Catholic
Chinese, as it is well known that France is
prepared to extend her protection to all such.Mr. Ho Tung is appealing against the
decision of the court below in the matter of Ho
Tung and the Man On Insurance Company, the
appeal being opened yesterday.According to the *Universal Gazette* last week
one Frenchman and twenty-five foreign railway
engineers were being hunted by the Boxers at
Cheong-Sindien, about eight miles from Luo
Kanchiao Bridge.A Chinaman of no occupation was prowling
about the first and second floors of No. 9,
Praya Central, on Thursday about mid-
night in search of valuables to lay his hands
on, when, to his regret he was caught by a
native watchman in the act of departing with
some Chinese clothes. He was brought up
before the Court yesterday and sentenced to
three weeks' hard labour.The Band of the Hongkong Regiment will
play at the Hongkong Hotel this evening from
8 p.m. to 9.30 p.m. The following is the pro-
gramme:—
March "Hypatia" Ingham
Overture "Lu Flautist" Kling
Selection "Madame Favart" Offenbach
Waltz "Die Alpenhorn" Grealy
Fantasia "Barenclio" Hobly
Polka "Bun Tan Tui" Trochro
"God save the Queen"A post mortem examination of the body of
the coxswain of Fenwick's launch, who died on
Monday morning, disclosed the fact that the
injury inflicted upon him the previous day by
the fireman of the launch was not the cause of
death. The man had suffered from peritonitis
in the stomach, and death was caused by the
bursting of an abscess. The injury done by
the chief was only a flesh wound and did not
penetrate to any of the internal organs. Yester-
day afternoon the fireman was charged at the
Magistracy with cutting and wounding. He
said the deceased threw a cup at him and he
replied by throwing a chisel at him. Sentenced
to six months' hard labour.At the Magistracy yesterday a Chinaman from
Shaukiwan was fined \$25 for neglecting to
report a case of infectious disease. Inspector
Robertson's suspicions had been aroused, by
seeing a sick-looking girl at the door of the
defendant's house and on Thursday he went
inside. Before then he had spoken to the
defendant at the door. The defendant denied
that there was any smallpox on his pre-
mises. He, however, seemed averse to the Inspec-
tor entering the house to see for himself, and the
Inspector had to push him aside. On going
into a back room the Inspector found the
mistress trying to hide a boy, who was evidently
suffering from a severe attack of smallpox.
The Inspector went away in order to get
someone to remove the boy, taking a girl who
also seemed to have been illing with him. On
his return he found that the boy had been
removed, having no doubt been taken away in
a sampan or junk. The girl was conveyed to
the Hospital, where it was found that she had
just recovered from smallpox.

CANTON NOTES.

[FROM THE "CHUNG NGOI SAN PO."]

A NEW TAX.
The question of imposing a shop-tax as a
substitute for all the *lekin* taxes, recommended
by Kang-yi, when he was appointed High Com-
missioner and sent to Kwangtung to look into
the revenues of the province by the Em-
press Dowager, has been completely settled.
The leading merchants, Sun-king-ya and
others, who have promised to pay to the
Government annually 4,000,000 taels as shop-
tax, have paid advances to the Government
1,000,000 taels collected from the different
shops. The 14th June was appointed by the
Viceroy and the Governor to open the shop-tax
office and the provincial treasurer has been
appointed to frame the regulations for collect-
ing the tax with the leading merchants. It is
reported that only one half of the shops are
willing to pay the tax. Each shop is required
to pay from one hundred to three hundred taels
in advance, and the tax is to be collected accord-
ing to the business of each shop, large or small.
It is said that the *lekin* offices and stations are
not to be abolished at present, for they are still
used to collect *lekin* taxes from the shops failing
to pay the tax.A SUPPOSED ASSASSIN.
A young man about twenty-five years of age
was arrested the other day by the soldiers in
Canton, being alleged to be the man who
attacked Lau Hok-san. He will be brought
before the Provincial Judge for trial. There is
as yet no evidence to show that the lad is the
real offender.A SWINDLER'S TRICK.
Sometime ago a great swindler went to a gold-
smith's shop in Sin-Sz street, Canton, and asked
for one hundred taels of gold, saying that he
belonged to the Imperial Bank of China. The
shop at once sent a *foki* to go to the bank with
him. When they arrived at the bank, the
swindler asked the *foki* for the gold and told
him to wait in the front part of the bank, where
there was no one else present. The *foki*, having
waited for some time, made enquiries and found
that he had been cheated. A heavy reward was
offered for the capture of the offender. It is
said that he had been arrested the other day
with all the gold in his possession.THE PRICE OF FIREWOOD.
Firewood is exceedingly dear in Canton and
in the surrounding districts, for the junk
carrying firewood from the West and East riv-
ers have to pay heavy blackmail to the pirates
to escape being plundered. A dollar at present
can buy only about one hundred and thirty
catties against two hundred or more catties in
former years. H.E. Li Hung-chang knowing
this has sent a *weiyuen* with fifty thousand taels to
buy firewood from the districts where it is pro-
duced, in great abundance, to be sold in Canton
at a low price to the poor.

THE SUICIDE BY AN AMERICAN.

ENQUIRY YESTERDAY.

At the Magistracy yesterday afternoon Mr.
Gompertz held an enquiry into the circumstances
attending the death of Arthur W. Upton, an
American, who was found shot dead in Cham-
berlain Road on the 14th May.Major Whitty, R.A.M.C., said that on the
14th of May he went up to the Peak by the
1.30 p.m. train. In going along Chamberlain
Road in a chair he saw the deceased lying on
the roadway. He found that he was dead, and
he went back and reported the matter to the
Sikh policeman on duty outside the Tram
Station. He did not make any examination of
the body except to feel the pulse and see that
the man was dead. He had never seen the de-
ceased before. When he returned with the
Sikh policeman they found the revolver pro-
duced lying underneath the man's right thigh.
There was a wound on the right forehead.Dr. Thomson, who examined the body on the
15th May, said he found a gunshot wound on
the right side of the head. The ball had passed
right through the head—through the upper part
of the brain.Mr. Haynes, manager of the Hongkong
Hotel, said that on the 15th May he attended
at the Mortuary to identify the body of the de-
ceased. He identified it as that of Arthur
William Upton, who had been staying at the
Hotel since the 6th May. He should say the
man was about 38. The man registered as "A.
W. Upton, Manila." The letter produced was
found in his room on the 15th May together
with the deceased's hotel bill, which had been
presented the day but one before. On the en-
velope containing the letter were written in
lead pencil, "Please forward." The letter
simply said—"My Dear Lydia, Good Bye.
As Ever, Arthur." While in the hotel the
deceased was very steady and quiet.
He did not seem to have any friends in
Hongkong. There was nothing of any value
found among the deceased's effects in this room.

The hotel boy who attended to the deceased said the deceased went out of the hotel at about seven o'clock on the morning of the 14th May. He returned about nine o'clock and went out again. He did not come back. The next day he saw the dead body of the deceased at the Mortuary. The deceased was very quiet when in the Hotel. There was nothing unusual in his habits. He used to have drinks in his room, and had seen him the worse for liquor. He was sober when he went out on the morning of the 14th May. He had seen him the worse for liquor three or four days before.

Inspector Macnab gave evidence as to the removal and search of the body of the deceased. The revolver which was found near the deceased was loaded in five chambers and one chamber had been recently fired. The pocket book produced was found in the man's inside breast pocket. It contained a large number of papers—receipts, passports, and a pawn-ticket relating to a gold watch and chain. No coin of any description was found upon the deceased. The empty revolver case was found attached to the hand of the deceased's trousers. He searched the deceased's room at the hotel the next day and found the letter produced. He also found in a box a bolt containing cartridges, corresponding with the bullets in the revolver.

A verdict to the effect that the deceased committed suicide by shooting himself was returned.

THE BOXER RISING.

[FROM OUR TIENTSIN CORRESPONDENT.]

Tientsin 29th May.
The Boxers have precipitated a crisis, and unless the Imperial Government instantly gives up its insane attempt to run with hare and hounds the issue will be most grave. Chiefly through the influence of Yu Hsien, the ex-Governor of Shantung, whom the Germans got cashiered last year, the Peking officials have persuaded themselves that the *I Ho Tuan* was a society where strings might be pulled to Chinese advantage *vis-à-vis* foreigners. Consequently in all their proclamations, instructions to officials, &c., they have taken the line of flattery and non-denunciation *qua* wrongdoers the Boxers are to be punished, but *qua* patriots and gymnasts who affect military drill they are to be left strictly alone. The result is that they have now raised a ghost which, unless they are very prompt and decided, they will be unable to lay. The Ministers have been very well informed by direct communication from missionaries in the unaffected districts how serious the situation is; they have been unceasing in urging on the Chinese the dangerous nature of the fire they were fostering in their anxiety to scorch the foreigner. Bishop Favier especially has kept M. Piechon au courant with all that has been going on below the surface. This experienced and cautious old resident last week did an unprecedented thing in closing his (Peking) Orphanage and Hospital by way of precaution. These institutions which attract the notice of the mob in times of sedition and which give rise to appalling calamities. It is to be noted that the Right Reverend Bishop has a constitutional tendency to residences in times of danger, but on the other hand a more wary or better informed observer of affairs is not to be found in China.

Now for the facts. The Boxers from Southern Chihli have acquired quite a remarkable mobility; they have within the last week swarmed up into the neighbourhood of Pao-tung Fu. They have been threatening the native Christians and railway officials all round for a few days. The Provincial Authorities sent up Brigadier Yang with three hundred rifles against them to avenge the death of some eighty or ninety Christians who have been attacked and killed at Kuo-Li Yang, after consulting with the magistrate of Chio-chan, posted on to deal with the Boxers summarily. With a small party of thirty men he came up with them on a hillside, near Lai-Shuei and, much against the advice of his followers, dismounted and allowed himself to be inveigled up the hill for a consultation. He was pulled into a den, and instantly done to death; as many as seventy-two wounds were given him; a statement is now circulating in the form that he was cut into seventy-two separate pieces. The accounts as to his followers vary; some say they were all cut off, others that only two or three were killed. This attack on an Imperial officer was the first awakening given to the Palace folk in Peking. Instantly twelve camps (5,000) were ordered up from the military centres. This incident took place on the 23rd or 24th instant, but the Boxers have been more prompt than their punishers. On Sunday they first the railway stations at Liu-lo-ho and Chang-shin-tien on the Lu Han line, now in charge of the Belgians and yesterday they moved in the Peking direction and fired the stations at Lu-ko-chiao (Polo's Bridge) and Fong-ta (8 miles from Peking).

Mr. Norregraad early yesterday sent an engine for fourteen or twenty miles in the Pao-tung direction to bring off the Belgian refugees; it whistled long and loud in the neighbourhood of their houses but got no tidings of them. There is a ghastly report that nine of them in a group are on top of a hill with their wives fighting for their lives, but there is happily no evidence whatever of its truth. Panic is many-mouthed and lying-mouthed and though there is cause for anxiety we do not think the case is so bad as this. Mr. Norregraad on approaching Chang-Shu-Tien saw flames at the station, and when the train pulled up, about a hundred men, brandishing swords, tried to outflank it, so he at once reversed and came back to Feng-tai; whence, with the others, he came down to Tientsin. The workshops and engine houses at the great junction (Feng-tai) were only set on fire in the afternoon after the foreigners had left. The young train up to Peking only went as far as Yang-tsun (20 miles); at the suggestion of the traffic manager it came back, as he suspected danger from the fact that the corresponding down train

had not even started. The result was that there has been no communication between Tientsin and Peking to-day. The Peking military commander sent out two battalions to take charge of the terminus at Ma-chia-bu (one mile from the South gate), and we know so far that nothing serious has transpired there.

Some rational doubt is felt as to the behaviour of the troops, but so far there is nothing to warrant the fear that they will join the Boxers; although Peking is thus cut off, there is no cause for panic. The Chinese know as well as anybody the consequences of any violation of the *sacrosanctitas* *legationum*. If they can control their soldiers all will be well, both as regards the *I Ho Tuan* and the city mob. Poor as their soldiers are they are easily capable of taking the rebels in hand with their honours-poles drill and their fanciful invulnerability. There are no guards at the Legations at present, but late last night the Ministers of the United States, Great Britain, Germany, France, Russia, Italy and Japan telegraphed via their Tientsin consuls for one hundred men each. The Americans are to land to-day from the *Neacoh* which is fortunately at Taku, and the Japanese have already sent up twenty-five men from their gun-boat. The Russians, Germans and British will be here in forty-eight hours. We also have twenty British marines in Tientsin. Tientsin feels no anxiety for itself. We have a male population of at least 300 adult foreigners; nearly 100 of these are volunteers.

Later.
Communication with Peking is restored. The 4 a.m. train crammed with soldiers got through to-day early, and ordinary traffic was resumed later in the day.

The Boxers have moved N. E. from Feng-tai. The Russian Legation is sending down its ladies and children.

There is no word whatever of the Belgians on the Lu-Han line, either on this side of Pao-tung-fu or beyond it. Both Chinese and foreign authorities are acting vigorously. The Boxers have impressed the native mind as nothing has done for thirty years. The belief in their immunity from death and wounds is universal, but the moment facts upset it there will be a violent reaction.

Wednesday, May 30th.
A relief party of fourteen volunteers, mostly French residents, has left to rescue the Belgians from Chang-shen-tien. No news whatever has come about these gentlemen. A native report says they are in a pagoda on a hill, and have shot several of their assailants.

One hundred and eight men landed from the U. S. *Neacoh* last night and came up to Tientsin by river at 11 p.m. They will have to wait the arrival of the other six guards, and go to Peking together. Transit difficulties are expected; the officials will probably refuse railway passengers.

A HONGKONG CHINAMAN'S EXPERIENCE.
In view of the attention directed towards the "Boxers" up north, it may interest our readers to know that men practising the same tricks as these people are going about the colony and are gathering to themselves quite a number of adherents. There is no reason to believe, however, that there is any conspiracy afoot, the object of the propagandists being, apparently, merely to make money. They rent rooms in different parts of the colony and give exhibitions calculated to make the ignorant believe that they are invulnerable, and as they declare that all who join them, paying \$10 as entrance fee, will be equally blessed, they are reaping in a fair sum of money every week.

This was the first time the "Invulnerables" have appeared in Hongkong. They worked the place some years ago, and a Hongkong Chinaman the other day gave one of our representatives an account of a visit which he paid and some friends to one of their exhibitions given in a club in Hollywood Road. Said he—
"When we reached the place the master Boxer and his followers were on their knees saying prayers, during which they threw chains in water which they drank. They declared that this made them invulnerable, and they then commenced their exhibition, beginning with swallowing knives and so on."

"Then a man came forward and asked one of my friends to give him some blows on his stomach. He gave him five blows, but they did not appear to hurt him at all. A brother of mine then asked to be allowed to try. The Boxer made no objection, whereupon my brother, who is a very muscular man, gave him two blows which nearly killed him; he could not stand a third blow. The next day he vomited blood. Then he had consumption and died shortly afterwards."

"Another man got a chopper and began striking his stomach with it. He however took care only to strike the soft part of his stomach, and he did himself no harm. It was just like striking an india-rubber ball."
"Then the man was foolish enough to ask someone to chop him on the arm, saying that he would do him no injury. He was chopped on the arm with the result that his arm was nearly cut in two."
"Besides this they allowed anyone to strike them with a bundle of iron bars. When struck with the bundle they cannot be hurt much, but one out of our party asked to be allowed to strike a Boxer with a single bar. He got permission, and gave the Boxer a blow which almost disabled him."

WHITE AND SOUND TEETH. ROWLAND'S OPIORIN is the best and purest dentifrice, being warranted free from any acid or gritty ingredients; it whitens and preserves the teeth, eradicates the formation of tartar, removes spots of incipient decay, polishes and preserves the enamel, sweetens the breath, induces a healthy action of the gums, causing them to assume the brightness and colour indicative of perfect soundness. ROWLAND'S ESSENCE OF TOILET is the best preparation for dyeing the hair a permanent brown or black. Ask Stores and Chemists for ROWLAND'S articles of 67, Hatton Garden, London.

"When these men go about giving exhibitions in the streets they have a lot of boys as accomplices. When they have got a crowd round them one of the Boxers will call out 'get me a boy,' and one of these boys will step out of the crowd. The Boxer will then profess to mesmerise him, and will order him to go all sorts of things which he was previously trained to do."
"These men when worshipping hang up characters representing Confucianism, Buddhism, and Laotian, the tablets also containing signs representing seeing and hearing."

THE POSITION AT MASAMPO.

In an article on Mr. Brodick's statement in the House of Commons as to the position at Masampo the *Kobe Chronicle* says—
"Mr. St. John Brodick declares that the new agreement between Russia and Korea has no reference to sovereign rights, and merely grants a concession similar to that granted Japan at Masampo. We do not quite understand this statement. Japan, so far as we know, has obtained no concession of any kind at Masampo. When the port was thrown open to foreign trade, certain Japanese subjects purchased land there, just as British, German, French, and the subjects of any other nation might have done. It appeared, however, that the land so purchased, situated as it was on a peninsula, was in fact a part of a Russian steamship company, thus rendering the lots worthless for the purpose for which they had been acquired. That was the beginning of the difficulty, and it is understood to have been settled by the sale of the land to Russian subjects, who purchased on behalf of a steamship company running vessels between Port Arthur and Vladivostok. In neither case on the sale of land be strictly called a concession, and indeed a Russian journal published at Port Arthur was, if we are not mistaken, instructed to explain some time ago that the word 'concession' used in describing the transaction was a misnomer. What has aroused criticism in Japan is the fact that Russia has obtained a guarantee or undertaking from Korea that the island of Koje-do opposite Masampo will not be alienated to any other Power, and it is suggested that unless Russia had some other motive than that of acquiring land as a depot for a commercial line of steamers there was no necessity for such an agreement, which in effect gives Russia a right of pre-emption over Koje-do, that may ultimately be exercised to the disadvantage of other nationalities having interests in the spot. It is really very difficult even on this point to see how Great Britain or Japan or any other Power can make a protest unless there is some idea of claiming the island. Perhaps the Russian Government might be asked to give an undertaking that Russia shall be regarded as among the Powers to whom the island will not be granted, or sold, or leased, thus placing her in the same position as the other parties interested in the matter, and Japan will scarcely take action unless determined to have a favourable answer at all costs. The probability is that the dispute, after drifting for a few months and exciting more or less interest, will quietly be allowed to drop."

LATEST STEAMER MOVEMENTS.

The steamer *Verona* left Suva on the 7th inst., and is expected here on or about the 7th July.
The Imperial German Mail steamer *Bayern*, carrying the German Mails with dates from Berlin of the 14th May, left Singapore on Thursday, the 7th inst., and may be expected here on or about Tuesday, the 12th inst. at daylight.
The E. A. steamer *Stam* left Singapore on the 8th inst., and may be expected here on or about Thursday, the 14th inst.

A contemporary reports that owing to increased price of rents and provisions, \$15 more per month is to be charged the boarders at the *Raffles Hotel*, Singapore.

A Methodist minister in Stroudsburg, Pa., publicly prayed that lightning would strike a new brewery nearing completion. During a severe thunderstorm yesterday the brewery was struck by lightning and destroyed. The owner will sue the pastor for damages. Temperance advocates all over the country are exulting, and resolutions for lightning to strike breweries and distilleries are general.

The *Friend*, edited by war correspondents at Bloemfontein, is good reading. Of course, kopje provides excellent copy for the paper. Correspondents are requested not to write on both sides of the paper. "It is all right to take a kopje on both sides, but you should not send it in on both sides. Some of the editors are sufficiently profane already." Under the heading "More Kopje-Book Maxims" the writer says: "A man who would trust a White Flag would believe an Intelligence Officer." "What can be secured must be secured," and "The taking over is no small part of the kopje-book."

THE NEW FRENCH REMEDY

THERAPION

This successful and highly popular remedy, as employed in the Continental Hospitals by Boerhaave, Rostan, Jobert, Veigien, and others, combines all the desiderata to be sought in a medicine of the kind, and removes everything hitherto employed.

THERAPION No. 1. In a few days only, removes all discharges from the urinary organs, effectually superseding injections; the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief where other well-tried remedies have been powerless.

THERAPION No. 2. For impurity of the blood, acrid humors, spots, blotches, pains and swellings of the joints, secondary symptoms, diseases of the bones, sore throat, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c.; to the destruction of the sufferer's teeth and ruin of health. This preparation cleanses the whole system through the blood, and thoroughly eliminates every poisonous matter from the body.

THERAPION No. 3. For nervous exhaustion, waste of vitality, and all the distressing consequences arising from early effort, excess, residence in hot unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated.

THERAPION may be procured at 2/6 and 4/6 per package, of the principal Chemists and Merchants throughout the world. In ordering, the purchaser should state which of the three numbers he requires, and observe that the word "THERAPION" appears on the Government Stamp (in white letters on a red ground) affixed to every genuine package, by order of Her Majesty's Hon. Commissioners, and without which is a forgery.
